RE: Mandated Dental Exams

The School Health Law requires that all children have a dental exam in grades 1, 3, and 7, or within six months from the original entry into the school system. Students may be examined by their family dentist or the school dentist.

Private dental exams must be completed and the Private Dentist Report submitted to the school by **November 30**. If this form is not submitted to the school by December 20, your child will automatically be scheduled for an exam at school.

If you have any questions, please contact your child's school nurse.

Thank you.
